Summary / Professional Profile

A passionate **UI/UX Designer** and **Front-End Developer** dedicated to building seamless, intuitive digital experiences. Translates complex user needs into elegant designs, leveraging an **engineering mindset** to deliver performant and functional solutions. Expertise spans from wireframing and prototyping to developing polished, production-ready code, focusing on **driving user satisfaction** and **business success**.

Technical Skills

- **Front-End:** React, JavaScript (JS), TypeScript(TS), HTML5, CSS3, Tailwind CSS
 - **Design Tools:** Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD, UI/UX Design
 - **Workflow:** Responsive Design, Prototyping, User Research, Wireframing, Design Systems, Usability Testing
 - **Dev Tools:** Git/GitHub, VS Code, Chrome DevTools, NPM/Yarn
-

Professional Experience

UI/UX Designer & Front-End Developer

Freelance | 2025 – Present

- Designed and developed multiple successful projects for a diverse range of clients, directly contributing to user satisfaction and project success.
- Drove a measurable **increase in user engagement** across client projects through strategic improvements in UX design.
- Managed the full design and development lifecycle, from initial wireframes and prototypes (Figma) to final, performant code (Tailwind CSS, JavaScript, HTML/CSS).

Front-End Developer (Intern)

National Telecommunication Institute | June 2025 – August 2025

- Achieved **pixel-perfect implementation** of responsive designs, ensuring cross-browser and cross-device compatibility.
- Significantly **optimized website performance and loading times** through targeted code improvements.
- Collaborated closely with designers to translate concepts and high-fidelity mockups into functional user interfaces (React, Tailwind CSS).

UI/UX Designer

Digital Egypt Pioneers Initiative (DEPI) | October 2024 – June 2025

- Developed comprehensive, scalable **design systems** that streamlined design and development workflows for multiple clients.
- Conducted hands-on **user research and usability testing** sessions to inform design decisions and validate prototypes.
- Produced key design artifacts, including wireframes, prototypes, and high-fidelity mockups (Figma, Adobe XD).

Cloud Computing Intern

Huawei | July 2024 – October 2024

- Contributed to the design and development lifecycle of internal cloud computing solutions.
- Gained foundational experience customizing and optimizing cloud computing environments.
- Developed a comprehensive understanding of core cloud infrastructure principles.

Education

Bachelor of Engineering in Computer and Communication Engineering

Benha University | Expected Graduation: September 2026 (September 2021 – September 2026)

- Focus includes app development, network design, embedded systems, and data analysis, providing a strong **technical foundation** to complement design skills.

Key Soft Skills

Communication, Active Listening, Collaboration, Problem-Solving, Critical Thinking, Adaptability, Learning Agility
