About Me

A UI/UX Designer who believes the best digital experiences feel invisible – intuitive and seamless. Solves complex user needs with elegant design, informed by an engineering background and a relentless focus on user feedback. From wireframes to prototypes, the drive is to create solutions that are both beautiful and functional, exceeding expectations in terms of usability and visual appeal. Ultimately, the goal is to elevate user satisfaction and deliver designs that drive business results.

Education

  • **Bachelor of Engineering in Computer and Communication Engineering |** Benha University | [9/2021] – [9/2026]

- Exploring app development, network design, embedded systems, and data analysis to develop a holistic approach to creating innovative solutions.

- Currently developing a strong foundation in technical principles, complementing my design sensibilities.

Experience

- **Cloud Computing Internship** | Huawei | [7/2024] – [10/2024]

  - Contributed to the design and development of cloud computing solutions.

  - Customized and optimized cloud computing environments.

  - Developed an understanding of cloud infrastructure.

- **UI/UX Designer**| Digital Egypt Pioneers Initiative (DEPI) | [10/2024] – [6/2025]

  - Developed UI/UX design skills.

  - Gained experience in user research, wireframing, prototyping, and visual design.

  - Collaborated on user-centered design projects.

Skills

UI/UX Design, User Research, Interaction Design, Usability Testing, Accessibility, Prototyping, Interactive Mockups, User Flows, Typography, Color Theory, Branding, Iconography, Figma, Adobe Photoshop, Adobe Illustrator, Wireframing, Communication ,

Active Listening, Collaboration, Problem-Solving, Critical Thinking, Adaptability, Learning Agility, App Design, Web Design, Logo Design
