Summary

Highly Skilled UI/UX Designer and Front-End Engineer with a strong foundation in Computer Engineering. I specialize in applying Human-Centered Design (HCD) principles to translate complex user needs into intuitive, responsive, and high-performance web applications using React, Next.js, and Tailwind CSS. Proven expertise across the full design and development lifecycle — from user research and building scalable Figma design systems to delivering accessible and production-ready code. Dedicated to creating digital products that measurably improve user engagement and business value.

Experience

Freelance UI/UX Designer & Front-End Developer

Remote | Jan 2025 – Present

- Designed and developed responsive e-commerce and education platforms, improving user engagement.
- Engineered scalable, production-ready front-end solutions using React, Next.js, and Tailwind CSS.
- Translated complex client requirements into detailed wireframes, interactive prototypes, and pixel-perfect UIs in Figma.

Digital Egypt Pioneers Initiative (DEPI) — Front-End Developer

Cairo, Egypt | Nov 2025 – Jul 2026

- Building Responsive Interfaces: Creating modern, mobile-friendly web pages using CSS and Tailwind utility classes to ensure designs look great on all screen sizes.
- Component-Based Development: Developing reusable UI elements in React, focusing on clean code and consistent styling across the application.
- State & Data Management: Using React Hooks (useState, useEffect) to handle user interactions and fetch data from APIs to create functional web apps.

National Telecommunication Institute (NTI) — Front-End Developer Intern

Cairo, Egypt | Jun 2025 – Aug 2025

- Developed responsive, good-looking UIs that improve user engagement using React, Next.js, and Tailwind CSS.

- Transformed Figma designs into production-ready applications and websites.

Digital Egypt Pioneers Initiative (DEPI) — UI/UX Designer Intern

Cairo, Egypt | Oct 2024 – Jun 2025

- Built and maintained a scalable Figma design system, improving design handoff.
- Conducted user interviews and usability testing, iteratively refining core user experiences.
- Developed wireframes, user flows, and interactive prototypes.

Huawei Technologies — Cloud Computing Intern

Cairo, Egypt | Jul 2024 – Oct 2024

- Gained foundational knowledge of scalable cloud systems and DevOps workflows in a large-scale enterprise environment.

Education

Bachelor of Engineering, Computer & Communication Engineering Benha University
— Shubra, Cairo, Egypt

Technical Skills

- **UI/UX Design:** Figma, Penpot, Design Systems, User Research, Wireframing, Prototyping, Usability Testing, User Flows
- **Front-End Development:** React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Git, GitHub
- **Workflow:** Responsive Design, Cross-Browser Compatibility, Agile/Scrum, VS Code, NPM/Yarn

Certifications

- **Front-End Web Development** — Digital Egypt Pioneers Initiative (DEPI), 2026
- **Front-End Web Development** — National Telecommunication Institute (NTI), 2025
- **UI/UX Design** — Digital Egypt Pioneers Initiative (DEPI), 2025
